

## **SOCKERS NORTHWEST - LAKE BARRINGTON, IL.**

Sockers FC Chicago is excited to announce its newest location in Lake Barrington, IL at the Canlan Sportsplex. Objective of the Sockers Northwest location is to unite like minded players from surrounding communities to provide the proper development pathway so that they can reach their fullest potential. "When you look at the map of Chicagoland and the soccer communities in and around the Barrington area, the opportunity exists to provide like minded players with national level programming by properly utilizing the state of the art facilities at Canlan." Says Director Karl Smith. "We are arriving in this area with a vision and a plan to raise the standards of youth soccer and provide the players with a experience they will remember for a lifetime."

With the growing demand for proper training surfaces, physical training, and match analysis, Canlan Sportsplex provides all the necessary requirements for next level programming and provides a professional environment.

- Turf field with appropriate training equipment
- Fitness center for athletic development
- Meeting rooms for educational presentations and video analysis
- Climate control which reduces weather related cancellations and obstacles

"Over the last two years our club has been playing our National (USSDA) and Local (NISL/IWSL) platform games at the Canlan Sportsplex facility. In the Fall of 2018 one part of our Northwest program will operate in the Lake Barrington Facility. With this we will now have one facility that can provide everything the player needs in terms of the daily training environment, the implementation of our methodology, and curriculum throughout the whole year. We believe our club can have an even greater impact in player development in the Northwest suburbs with this opportunity to operate at the Canlan Sportsplex." Says, David Richardson President/Technical Director.

Tryouts begin May 14th. Please visit Sockers FC Chicago tryout page for registration and information. Please contact Director Karl Smith with any questions. [karl@sockersfc.net](mailto:karl@sockersfc.net) or (224)324-7637
